#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2833

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 1-5, 11-15 and 21 remain rejected under 35 U.S.C. 102(b) as being anticipated by Bartle, et al. (prior art – Fig. 9). This housing comprises a main section having a terminal end 8 and a wire receiving end that has a flange 9 and receives the wire 12. The strain receiving member includes a passage sized to admit the wire 12 and is selectively mountable in the direction shown and offset by 180°. The strain relief member further comprises a second flange (to the left of groove 10) that mates with the mounting flange.

Applicant argues that the strain receiving member of Bartle cannot be “selectively mountable to the mounting flange of the main section in one of a plurality of discrete, angularly offset positions” as required by claims 1 and 11. Although the strain receiving member of Bartle is more limited than that of the present invention, it can be mounted in two different positions. Besides that shown, it can be mounted in a position offset by 180° by placing the lower casing 2 on the top and the upper casing 1 on the bottom. This results in the exit for the wire being on the opposite side. Contrary to applicant’s allegations, this does not require the grooves 10 to also be in the upper casing 1 since the grooves 10 of the lower casing 2 will slide over the flanges 9 when it is assembled on the top.

3. Claims 22-25 and 30 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Bartle in view of Sanchez as discussed above and in the previous Office action.

4. Claims 6-10, 16-20 and 26-29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 2833

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. It is suggested that responses to this final action be faxed to:  
(703) 872-9306

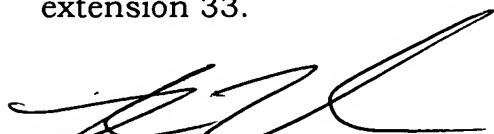

Please refrain from sending a confirmation copy, as noted in 37 CFR 1.6(d) and 1.8(b).

Alternatively, responses may be mailed to:

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450
